

## ***Quarter 3 prices, block calving and thinking about reseeding?***

Quarter 3 prices have been released and prices have firmed, with some products increasing more than others. This is predominantly due to container shipping rates becoming very expensive. We are doing what we can to negotiate prices and look at mineral specifications on request.

If you are feeding a mineral, don't hesitate to get in touch with your mineral specifications!

Whatsapp or email in your mineral tickets to:
