

Summer, where are you?

The "summer" months are in full swing, but it has not been feeling like it! Although May has been rather unsettled, many farms have managed to get their 1st cut silage done! Maize planting has been a struggle this season, with many having to have drilled a lot later than planned!

Hopefully June will see a pick up of sun, and dry weather!

With these unpredictable weather trends, it is as ever important to get the most of of your forage; get in touch to see what additives we have on offer and for prices!

[01270 295025](tel:01270295025)

Get the most out of your silage this season!

Depending on the grass and silage making conditions, we will have the additive to suit!

Silo-Shield Grass

Cost effective additive to aid wetter grasses ferment.

Silo-Shield Fast

The best for wetter grasses and crops which contain clover.
Contains enzymes

Silo-Shield Cool

Specifically targeted on stability on high dry matter crops. Heating and mould a challenge? Silo-Shield cool can help combat it!
Contains enzymes

Dairy Chemicals

Did you know we supply a range of dairy chemicals, gloves and paper towels?

From tank cleaners, to milk stone removers and teat dips, we are sure to have something which suits you!

Get in touch to see if we can save you some pennies, don't forget to ask us about our gloves and paper towels!

****NEW PRODUCT****

RS Energy Advance Milk Replacer

We have had this milk replacer on many units across the country and getting some great feedback:

"The calves love RS Energy Advance and are doing really well on it, we are very happy with the product, the performance of the calves on the powder, and support from Rumen Supplies" Ayrshire.

"Really liking this new powder, calves doing well on it and settled" Dumfrieshire.

"We spend a lot of time getting the colostrum right for our replacement heifers, so making sure the replacer we give them is top quality is a non-negotiable. Our calves have responded as we had hoped with RS Energy Advance; all drinking without any fuss, growing well!" Lancashire.

Give Beth a call on: [01270 295025](tel:01270295025) or [07889 423919](tel:07889423919) if you have any youngstock and milk powder questions or wanting a quote!

RS Energy Advance Calf Milk Replacer

RS Energy Advance is a British skim-based milk replacer. It contains 50% skim (plus whole milk) making it a highly digestible milk replacer, suitable for replacement heifers and beef calves. It is formulated keeping whole milk and the osmolality in mind, to support and promote healthy, productive calves.

Protein	23.0%
Fat	25.0%
Fibre	0.0%
Ash	7.0%

Butterfats at grass

There are two main reasons why a decrease in butterfats can occur once cows have been turned out; 1) Reduced rumen pH, and 2) High fat levels in grass.

Reviewing of the diet is key to limiting the impact of turnout:

Ensure enough fibre is in the diet and keep an eye on oil levels in concentrate compound and blend.

- ◆ Consider increasing rumen carbohydrates through starch and sugars.
- ◆ Ensure supplements are considered and used if necessary; from buffers and yeasts to help rumen pH and to stimulate fibre digesting bacteria, as well as C16 fats and amino acids (RumenSmart).

Are you struggling this season with fats? Speak to your nutritionist and get in touch for more information and prices.
